

Revolutionizing PV Mounting

2 Mw
Per
Hectare

LOWEST CAPEX

LESS STEEL / LOGISTICS / LABOUR

PEGworks without ground soiling foundations. No heavy construction.

- 50% QUICKER
- 50% LOWER COST

A ROD, WHICH CHANGES EVERYTHING.

The new system design is based on a PV module mesh, which is borne by many rods.

HIGHEST COVERAGE PEG works

- 2 Mw / HECTARE
- 160 SITES WORLD WIDE

PEG CAPEX savings:

**PEG Systems Worldwide: >500MWp,
in 30 Countries 6 Continents**

Revolutionizing PV Mounting

-50%
logistic
costs

35
